The BC Foster Care Education Program

The B. C. Ministry of Children and Family Development (MCFD) in collaboration with the British Columbia Federation of Foster Parent Associations (BCFFPA) has developed a standardized education program designed to build on the skills and experience caregivers bring to their role, as well as knowledge to support their ongoing training and development. The BC Foster Care Education Program is intended for approved foster parents who have a family care home agreement with the B.C. Ministry of Children and Family Development.

At least one caregiver (ideally the primary caregiver) in each approved foster home is required to complete the program. Existing foster parents (those persons approved prior to November 1, 1999) will be expected to complete the program by December 2004. New foster parents (those persons approved after October 31, 1999) are expected to complete the program within 2 years of their approved start date.

The BC Foster Care Education Program is free of charge and consists of a total of 53 hours of training. It is presented in 14 modules.

Series 1: 36 hours / 9 modules:

Each module threads together core themes of teamwork, child and youth development, communications, guiding children's behaviour, family support, diversity and inclusion, and the Ministry of Children and Family Development Guardianship Model.
